

POWERMAX™ DIRECT FIT PERFORMANCE INTERCOOLERS

2015+ BMW M3 - M4 (F80 M3 | F82/F83 M4)

Garrett direct fit performance intercoolers are engineered for enthusiasts that want increased vehicle performance while maintaining OEM fitment. Advanced CFD combined with bar and plate core technology results in lower intake temperatures that increase heat saturation point.

ADVANCING MOTION

REPLACE HEAT WITH HORSEPOWER

2015+ BMW M3 - M4 (F80 M3 | F82/F83 M4)

Garrett Powermax™ direct fit performance charge air cooler for the 2015+ BMW M3 and M4 boasts a 47% larger core with dual pass coolant flow to help reduce intake manifold temperatures by an average of 10 °F. CFD optimized end tanks improve air flow through the core. An average increase of 12.4 horsepower and 4.9 lb-ft of torque were measured during back to back dyno pulls. This direct fit performance intercooler installs in 1.5 hours and reuses the stock bolts, hoses, and clamps.

Part Number	Raw Finish	888883-6001
	Black Finish	888883-6002
Vehicle	Make	BMW
	Model	M3 M4
	Year	2015+
Engine	Type	I6
	Fuel	Gas
Weight	14.1 lbs / 6.4 kg	
Size Specs	7.2" x 9.8" x 3.6"	
	183mm x 249mm x 92mm	

Vehicle dyno test data comparing OE to Garrett. Multiple back to back dyno pulls measure intercooler effectiveness by comparing horsepower output..

Features:

- Supports up to 980hp
- 47% larger core than stock
- Installs in stock location
- Cast aluminum end tanks
- Air-to-water design
- Bar-and-plate construction
- Raw aluminum finish coming Q1 2020
